First 'Lesbian Conversations' mini-conference in Europe – creating a dialogue for lesbian therapists and counsellors

On the weekend of the 24th there will be a mini-conference in London that looks at the clinical experiences and perspectives of lesbian therapists and counsellors.

'Lesbian Conversations' discusses a wide variety of highly relevant topics to explore psychotherapy and counseling through the eyes of lesbian practitioners.

The mini-conference has sold out well ahead of time, indicating the need for these discussions felt by the lesbian community.

Topics of interest that will be discussed include questions of lesbian identity, boundary issues between lesbian counsellors and lesbian clients and LOL (Late-Onset Lesbians). There will also be presentations on Kink/BDSM, lesbian relationships and lesbian feminism, and lesbian's relationships with trans men.

This is the first conference of its kind to be held in Europe; it will take place over two days - the first day is woman-only, while the second day is mixed. The conference was conceived by the female Clinical Associates at Pink Therapy.

It is hoped that this event will help to open a dialogue between the many facets of lesbian identities (lesbian, bisexual, butch-femme kinky and trans) and how these can be appreciated and honoured in clinical practice.

ENDS

This event is sold out, but for further information on this or potential future events send an email to press@pinktherapy.com.
